CARDINAL GIBBON'S RING angel blash with shame. In my judg

"Last year there were 2393 marriages in this country and 217 divorces: thus there was one divorce to every eleven marriages. In the United States there were 78 divorces per 100, 000 population. This island has a pop ulation of about 95,000. It will thus be seen that our record is about 220 divorces per 100,000 of our population, which is three times as large as the average for our entire country. Oftenadvice, might check divorce seekers and lead to a reconciliation. Greater care should be exercised in the granting of divorces because wholesale divorce strikes at the very vitals of the State. Doctor Scudder of our city has well said, 'It has always been an axiom in political science that the family is the foundation stone of the State.' If the family fails to perform its functions properly, society disrupts. The twen-tieth century thus for has discovered no

his footsteps to the nearest agent who grants marriage licenses, he is a grave menace to society and should be isolat-ed to some lonely spot where the divorce will grindeth not and where the sale divorce is another term for 'free love' and both are alike abominable.

Too Many Divorce Courts.

#In most of the States divorce is granted on any of the following grounds—adultery, conviction of felony, cruel and inhuman treatment, wilful desertion for periods varying from one to three years, habitual drunkenness impotency, or neglect to support the wife. In New York the only cause is adultery. In South Carolina divorce is not granted on any grounds what-ever. One reason why wholesale di-The great question of the hour is how to stem this awful tide of wholesale divorce which is sweeping our country from end to end.

There is a crying need for national FLEETING GLIMPSE of the present abuses connected with the granting of divorces. I am aware that the constitution would have to be hanged in order to secure such a law but this can be done and ought to be lone. Uniform divorce laws in ever State would make divorce more difficult to secure.

Divorce colonies are foul blots on the pages of American history and should be abolished by national legis-lation. Some States have sold their state birthright for a mess of divorce pottage and have literally put a pre-mium upon the disintegration of mar-

ringe, ... Women should stop making the fatal mistake of marrying men to re-form them. This is a prolific source of wholesale divorce. It would be wiser and better for a woman to embrace a man-enting tiger or to engage in the gentle pastime or fondling rattisnakes than to marry a man to re-form him. It would be better, because her misery would soon be over instead of being endured day after day, week hourly anguish and daily misery event untly leads many a wretched woman to find relief in the divorce court. But how much better it would have been if she had chosen to spure a man of three weeks' visit, during which time had habits rather then marrying him they will journey to the crater of Kilto reform him.

For the salva-tion of the home and the preservation of society it is high time that our courts should deal severely with that usband or wife who regards marriage as a mere convenience and a harmless divorce on trivolous pretexts and false

"Another method to curtail this wholesale divorce craze is the educa-tional method. A higher, a saner, a more comprehensive view of marriage should be instilled into the minds of our American young men and women There are too many at the present time who regard marriage as a huge joke a perpetual honeymoon, a blissful di cersion, a favorite amusement, a harm-less pastime, a trial excursion. Such superficial and thoughtless conceptions of marriage can only be displaced by the educational method. Primarily this duty rests upon the parents. Other educational factors involved are religious and secular press, the higher schools of learning, and the pulpit. All these agencies should be employed to teach our youth that marriage is a long compact, a serious step, a voyage over life's seas fraught with tremen dous possibilities, a precious gift from the hand of a loving God.

"If our young people could only get such an exalted view of marriage and act accordingly, the divorce mill would not have much grist to grind.

"Another way to reduce wholesale divorce is for married folks to cease magnifying their differences and make an honest attempt to reconcile them. Widening the Gulf,

"A harsh or unkind utterance is often the first step leading to the di vorce court. A spiteful or ugly feeling is oftentimes nursed until the desire for divorce begins to burn.
